Hubbardston, MA 01452**

Dear Shari,

Thank you to QuadTech for the generous donations of office equipment to the Hubbardston Center School extended day program. As you know our program is healthy on supplies but very thin on storage space so the file cabinets and bookshelves were a tremendous help. We were able to use the file cabinets and book shelves that your company donated to clean up our space and better organize our books and materials. The students in our program were so excited to have a little reading nook created by the book shelves where we now store games for them to use at their leisure as well as a variety of books and magazines. The file cabinets now store our "food" craft items. By having these items in the school now and not outside in our shed keep the food from getting spoiled by the drastic change in temperature. This in turn saves the program funds that can be used for the kids.

We can't thank you or your company enough for your generosity of these and other supplies you have provided to our program.

Sincerely,
Kari Sacramone
Director, HCS - Extended Day Program
